Fact sheet

BECOME FAMILIAR WITH THE DIFFERENT AREAS OF CHORUS PRO

Chorus Pro features are displayed in tabs named "areas". Only a few areas are available by default. In order to access other areas, it is necessary to add them to its "structure" (that means its legal entity identifier)

Toolbar menu content

The « areas » of Chorus Pro are displayed as tabs in the top menu bar. Clicking on an « area » gives access to the corresponding functionalities. The first thing to do in Chorus Pro is to install the required areas.
